A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 27, 2007 has been entered.

Claims 8-10, 12 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 reads on administering to a patient a pharmaceutical preparation of claim 3 in the form of a controlled-release antibiotics drug. However, claim 3 reads on a pharmaceutical preparation in the form of molded bodies, tablets, powders, granules, fibers, knitted fabrics and fleece. It is not clear how a pharmaceutical preparation in the form of molded bodies, fibers, knitted fabrics and fleece can be administered to a patient in the form of controlled-release antibiotics drug.

Claim 9 reads on a permanent or temporary implant in the form of molded bodies, tablets, powders, granules, fibers, knitted fabrics or fleece.

Claims 10 and 18 read on a permanent or temporary implant in the shape of a tablet or molded bodies.

While implants in the form of molded bodies are known in the art, it is not understood how a permanent or temporary implant can be in the form of tablets,

powders, granules, fibers, knitted fabrics and fleece. Note, for example, that the usual mode of administering tablets is by oral administration and not in the form of an implant.

Claim 12 is improper in that it fails to further limit claim 7. Note that claim 7 is already limited to forming the pharmaceutical preparation into tablet and/or molded body form.
